MISSION

Our mission based on the philosophy of Swami Dayanand is to provide a wide range of holistic education by homogenizing the western knowledge while remaining anchored to the Indian culture moorings. We the DAVians are also committed to develop a scientific temper by crusading against superstitions and outdated custom, to raise up generations who are morally upright, intellectually well informed and emotionally balanced. We shall act as a catalyst of change by spreading education & by dismantling the cobwebs of ignorance & illiteracy.

We are indebted to sensitize individuals towards social welfare, to nurture creative & resourceful minds who care for the nation & the weaker sections of society, to inculcate the young minds with humanistic passions and values DAV's mission always has been to develop a thirst for knowledge in the students, devotion to honest and sincere discharge of duties and to impart an education, "to build" and education" to repay". A spark that was ignited by the DAV institutions way back in 1886 by its founding members, we as the torch bearers are committed to carry out the same mission in the realm of education.
