Co- ordinate Geometry	a) To Compare the curved Surface areas of two right circular cylinders which are formed from rectangular sheets of paper having same dimensions. - To compare the total surface areas of right circular cylinders which are formed from rectangular sheets of paper having same dimensions.
SCIENCE	PHYSICS- “Complete all the exercise questions of the Light chapter.” BIOLOGY- Complete the intext and exercise questions upto Asexual Reproduction. CHEMISTRY - Draw the electron dot structure for (a) H₂S (b) Propanone (c) F₂ (d) Ethanoic acid (e) S₈ - What is homologous series? Explain with an example. - What is hydrogenation? What is its industrial application? - Draw the possible structural isomers for Pentane. - Complete intext questions upto Hydrocarbons. Chapter- 4	Physics - “Prepare a working model of an electric circuit.” Biology – Prepare a report on Vegetative Propagation giving suitable Examples / Diagrams/ Photos focussing on advantages and disadvantages (Stick file) Complete the Practical Notebooks – Physics/Chemistry/Biology in a single Practical Notebook Chemistry Write some functional groups in carbon compounds from Table 4.3 on chart paper.
SST	History - write a brief about the wood block printing system. - Define manuscripts.what were the demerits of manuscripts. - what was the role of Johann Gutenberg in the development of the printing press . - Name the first book which was published by Gutenberg press. - Define print Revolution.write in brief about the impacts of print Revolution. - write in brief about the importance of print Revolution for uprising in France. - write in brief about the measures advocated by Mahatma Gandhi to be followed by satyagrahis during non-cooperation movement and civil disobedience Movement. - write in brief about the effects of non- cooperation movement on the economic front. - Who were the different participants of the non - cooperation movement and the civil disobedience movement? How did they saw the movement? Political science - Write and learn q/a of federalism in India and gender, religion and caste.	- Practice map work of Nationalism in India. - practice map work of minerals and energy resources.

SUBJECT

HOMEWORK

PROJECT WORK

Geo/eco
11.complete notes of ch-money and credit and ch-minerals and energy resources.

AI

- 1.Write all the 10 programs of python with their outputs in the practical notebook.
2. What is low code and no code.
- 3.What are the benefits of low code.
- 4.What are the limitations of no code.
- 5.Explain the areas where statistical data is used.

D.A.V. PUBLIC SCHOOL

MANPUR, KAIYA, GAYA

DEEPAWALI & CHHATH PUJA VACATION HOME-WORK

DEEPAWALI & CHHATH PUJA VACATION

CLASS: XI

SESSION: 2025-26

SUBJECT	HOMEWORK	PROJECT WORK
ENGLISH	Complete the Q/Ans of the following chapters and revise it. From Hornbill Discovering Tut: The Saga Continues ... The Adventure The Voice of the Rain From Snapshot Mother's Day The Ghat of the Only World	Write a travelogue with suitable pages A Journey That Changed My Life
MATHS	Do Chapters from NCERT TEXTBOOK 1.Differentiation 2.Geometrical Progression	1.To demonstrate that the arithmetic mean of two different positive number is always greater than or equal to the geometric mean 2.To construct different types of conic sections when plane is not passing through the vertex
BIOLOGY	<u>1.ch</u>- photosynthesis in higher plants(do chapters from ncert text book) 2. Make a well labelled diagram of following 1. human respiratory system. 2. Human heart 3. Human Excretory system 4. Human skeleton	Project- any one topic of human Physiology.

SUBJECT	HOMEWORK	PROJECT WORK
PHYSICS	Prepare lab manual on following topics - - Vernier Calliper - Uses of Hooke's Law - Screw gauge and its uses - Elastic moduli - Conservation of momentum. Fair notebook is to be completed till chapter 09 (mechanical properties of solid.), as per N.C.E.R.T pattern.	File project- - Prepare a file project on Hydrostatic Paradox. - Make a working model on Hydrostatic Paradox.
CHEM	1. Define the followings: (a) A system (b) surroundings (c) boundary (d) open system (e) closed system (f) isolated system (g) state functions (h) adiabatic work (i) first law of thermodynamics (j) Extensive and Intensive Properties (k) Heat capacity & specific heat (2) write expression for $c_p - c_v = R$ (3) What is reaction enthalpy? (4) Write about the followings (a) standard enthalpy of reactions (b) molar enthalpy of fusion (c) standard enthalpy of sublimation (d) standard enthalpy of vaporization (e) standard enthalpy of formation.	Project work - Plot a Graph between p & v when pressure is not constant and changes in finite steps during compression & infinite steps in a stick file and submit it.
IP	- Write a Python program to find the sum of all elements in a list. - Write a program to find the largest and smallest numbers in a list. - Write a Python program to separate even and odd numbers from a list. - Write a program to count how many times a particular element appears in a list - Write a Python program to remove duplicate elements from a list. - Write a program to reverse a list without using the reverse() method. - Write a program to find the second largest element in a list. - Write a Python program to create a new list containing the squares of all elements in a given list. - Write a Python program to check if a list is the same when reversed. - Write a program to merge two lists and sort the result.	Python Project Work: Topic: <i>Student Marks Analyzer Using Lists</i> (To create a Python program that stores the marks of students in a list and performs various operations such as finding the total, average, highest, and lowest marks.)

SUBJECT	HOMEWORK	PROJECT WORK
PHY EDU	1. Discuss various safety measures for preventing sports injuries? 2. Discuss the role of a leader in the field of physical education 3. What do you mean by adventure sports ? Discuss the objectives of adventure sports in detail. 4. Define test , measurement and evaluation? 5. Briefly discuss sit and reach tests in detail . 6. What do you mean by body mass index ? Explain the procedure of calculation of BMI . 7. To measure health related fitness, explain the Harvard step test and body mass index ? 8. Discuss about functions of muscles ? 9. Explain about the structures of respiratory system and detail	Draw a diagram of the skeleton system and respiratory system label it properly .

MANPUR, KAIYA, GAYA

DEEPAWALI & CHHATH PUJA VACATION HOME-WORK

DEEPAWALI & CHHATH PUJA VACATION		CLASS: XII	SESSION: 2025-26
SUBJECT	HOMEWORK	PROJECT WORK	
ENGLISH	Complete the Q/Ans of the chapters From Flamingo The Interview The Roadside Stand From Vistas The Enemy Journey to the End of the Earth	Write the autobiography of Shehnai with its project.	
MATHS	Do Chapters from NCERT TEXTBOOK 1.Differential Equation 2.Vectors	1.To minimise the cost of the food and meet the dietary requirement of the staple food of the adolescent students of your school.	
BIOLOGY	1.write about structure and function of ecosystem 2.write notes about following-a.ecological pyramid, Food chain, Food web 3.explain about decomposers with suitable diagram. 4. Explain about. reason of biodiversity conservation in own words.	1. Make a diagrammatic structure of any one and explain also:- a.food chain.b.food web. Biodiversity conservation	
PHYSICS	Lab manual work- 1. Refraction through a glass prism. 2. Refraction through glass slab 3. Working principle of ohm's law 4. Complete notes copy from chapter 01(Electrostatic) - 09 (Ray optics and optical instruments), as per N.C.E.R.T pattern.	1. Principle of working of metre bridge. 2. Principle of wheatstone bridge. 3. Working Model - Closed Circuit.	
CHEM	1.Give one chemical test to distinguish between the following pairs of compounds (a) secondary and tertiary amines (b) Ethylamine and aniline (2) Account for the following -Ethylamine is soluble in water whereas aniline is not.(3) Write short notes on the following: Acetylation,Ammonolysis,Hofmanns bromamide reaction, Gabriel phthalimide synthesis.	Project work -Draw resonance structures of Arylamines versus ammonia & write about them in a stick file and submit it.	

SUBJECT

HOMEWORK

PROJECT WORK

IP

1. What is Pandas in Python? Explain how it is useful for data analysis. Mention any two important data structures in Pandas.
2. Differentiate between a Series and a DataFrame in Pandas with suitable examples.
3. Write a Python code to create a Pandas Series from a list of marks [85, 90, 78, 92, 88] with custom index names as student names.
4. Write a Python program to create a DataFrame from a dictionary.
5. Explain the following DataFrame functions with examples:
 - `head()`
 - `tail()`
 - `describe()`
 - `shape`
6. What is Data Visualization?
How does Matplotlib help in data visualization? Mention any two types of charts used for data visualization.
7. Write a Python program using Matplotlib to draw a bar graph showing the marks of 5 students.
8. Differentiate between LAN, MAN, and WAN with suitable examples. Also mention one advantage of using computer networks.
9. What is digital footprint?
Explain any two steps a user can take to protect their digital identity online.
10. Define the following terms:
 - (a) Cyberbullying
 - (b) Open Source Software
 - (c) E-waste Management

Complete project work on the topic
“Library Management System”

SUBJECT	HOMEWORK	PROJECT WORK
PHY EDU	1. Explain the importance of biomechanics in sports with example 2. State Newton's laws of motion and explain their Implication in sports and your choice. 3. What do you understand about the angle of Projection ? 4. Explain the centre of gravity with an example. 5. Explain the importance of principles of equilibrium in sports activities? 6. Explain the method to improve flexibility with the help of an example? 7. What do you understand about self esteem ? 8. Define sports psychology. Discuss the importance of sports psychology in the field of sports. 9. What do you understand about psychological attributes ? 10. Define endomorph ,mesomorph, actomorph ?	Write on chart paper about physical fitness components and its types with proper example in detail?
